COMPUTING AMBASSADOR'S ONLINE SAFETY NEWSLETTER

WELCOME

Hi adults!

We are the Computing Ambassadors, and we're excited to share our very first newsletter with you! Every two weeks, we will be working together to bring you important updates and tips about online safety. It's important for us to help keep everyone safe online, so we want to share what we learn with all of you!

Stay tuned for advice, fun facts, and the latest news on how to stay safe online!

From,
The Computing Ambassadors :)

TOP TIP

Talking to us about what we are doing online really helps! When you ask us questions or chat with us, it makes it easier for us to share if we ever feel unsure or worried about something online. It's great to know that we can always come to you if we need help or advice!
