

Maths Long term plan

Maths – Year 3- 2023-2024

Yearly overview for lessons based on White Rose planning

Teachers to use the White Rose planning to guide learning. Lessons to follow the objective overview to ensure small steps in progression. The overview involves objectives from the previous year (r). Throughout each lesson teachers will need to assess children’s understanding. They should not move onto the next lesson until children have a secure understanding. Consolidation weeks are given to allow teachers to spend longer on certain units where needed.

	Week one	Week two	Week three	Week four	Week five	Week six	Week seven
Autumn 1 7 weeks	Place value (15 steps)			Addition and subtraction (up until step 16)			
Autumn 2 7 weeks	Consolidation	Addition and subtraction (16-22)		Multiplication / division (15 steps)			Consolidation
